Pursuant to Rules and Regulations for Water Quality Control Chapter 391-3-6 paragraph .02, the Environmental Protection Division (EPD) can delegate the review and approval of certain types of sewer system extensions to local governments that have demonstrated the capability for such review and approval. This delegation of responsibilities to local governments means the local governments are authorized by the Division to review and approve the sewer extensions for construction. Sewer systems include: new systems, extensions to new areas and replacement sanitary sewers. Types of sewer systems are limited to: gravity sewers, force mains and pumping stations.

The Division hereby delegates the review and approval of all sewer systems within and tributary to City of Atlanta, Department of Public Works with the following exclusions:

- . Sewers within 2000 feet of the Chattahoochee River.
- . Sewers greater than 120 inches in diameter.
